EDUCATION

Cornell University, College of Engineering

Aug 2021 - May 2025 | Ithaca, NY

B.S. in Computer Science, *Cum Laude* · GPA: 3.74 · Data Subteam Lead, CU GeoData

RELEVANT COURSEWORK

CS 2110 Object-Oriented Programming & Data Structures

CS 3110 Data Structures & Functional Programming

CS 3410 Computer System Organization & Programming

CS 4410 Operating Systems

CS 4420 Computer Architecture

CS 4700 Foundations of Artificial Intelligence

WORK EXPERIENCE

Software Engineer, Coinbase

Aug 2025 - May 2026 | Remote - Northern CA

- Shipped *Tax Lot Split* and *Selection* APIs, enabling accurate cost-basis tracking and flexible liquidation for all Coinbase users
- Owned full lifecycle from design and Golang implementation to production observability for millions of users
- Maintained service reliability as on-call engineer, leveraging Datadog dashboards to monitor service health and performing cross-team collaboration to resolve user-impacting incidents

Software Engineer Intern, Coinbase

May - Aug 2024 | Mountain View, CA

- Created a cost-benefit analysis tool supporting 3 new integrations within Coinbase's core bridging platform
- Proved feasibility of 3rd-party bridge integrations, cutting bridge sweep time from 7 days to 1 minute

Teaching Assistant, Computer System Organization & Programming

Jan - Dec 2024 | Ithaca, NY

- Coordinated with professors to provide the best learning experience for 300+ students in Cornell's core CS class
- Led weekly lab sections and office hours with 20+ students per session to strengthen their understanding of CS concepts

Software Development Engineer Intern, Amazon Web Services

May - Aug 2023 | East Palo Alto, CA

- Developed an anomaly detection feature to ensure data integrity within an internal reporting tool
- Instrumented CloudWatch alarms and a QuickSight dashboard for real-time data integrity monitoring

PROJECTS

CamlChess

Aug - Dec 2022 | Ithaca, NY

- Built a terminal-based, multiplayer chess game in OCaml to deep dive into functional programming concepts
- Implemented an interactive chessboard, graveyard, past move history, and an AI chess opponent

Jumpstart EdTech Hackathon - Tutër

Aug 2020 | Tracy, CA

- Developed a working prototype for an app to connect students with qualified tutors during the pandemic

SKILLS

AI-enhanced development workflow (Cursor / Claude)

Full Stack Dev with AWS tools (S3 / EMR / SageMaker / Step Functions / Pipelines / CloudWatch / QuickSight)

Git/GitHub collaboration · Debugging with Datadog

Test-Driven Development · Organized documentation

Strong critical thinking · Clear communication

LANGUAGES & FRAMEWORKS

Python · Java · OCaml · Golang · Scala · Spark · SQL
Protobuf · Bash · JavaScript · TypeScript · HTML · CSS
C · RISC-V Assembly

AWARDS

Cornell College of Engineering Dean's List

Cornell CS Course Staff Exceptional Service Award
